RRM CANADA DAILY BRIEF

Key findings:

- RRM Canada did not observe any significant indicators of foreign state-sponsored information manipulation in its monitoring of the broader Canadian digital information ecosystem during the period of August 23.
- RRM Canada assesses the majority of content originated from recognizable Canadian news sites.
- *Sputnik News* [published a piece](#) about Twitter's decision to label a tweet by LPC candidate Chrystia Freeland as "manipulated media." It has not received high engagement. Overall, Russian state-media outlets in English (including *Russia Today*, *Sputnik* and *TASS*) have not published widely on GE44.
- AnOmaly, a U.S. influencer with a high follower count on Youtube (243K followers), Facebook (1.6M followers) and Instagram (331K followers) known for [sharing false information about vaccines](#), recently [interviewed a Canadian Instagram user](#) who claimed that the proposed inter-provincial vaccine mandate was comparable to "China's social credit system" and that the LPC leader called the election because Canadians are "petulant". He adds that "Canadians don't want to be free" and that they are "being dragged out of their home" for not getting vaccinated. The video is likely intended for a U.S. audience, but a number of users in the comment section claim they are Canadian and that they enjoyed the video. The video received a combined 330K views across Youtube, Instagram and Facebook.
