Rapport de repérage des médias sociaux: du 18 septembre 17h au 19 septembre 17h 2021
Social Media Monitoring Report: September 18, 5pm – September 19, 5pm, 2021

Observations principales / Key observations

- Volume: **Last 24h: 978; Previous 7 days average: 1.7K posts/day; Previous 30 days average: 1.34K posts/day; pre-campaign average: 100 posts/day**
- Frustrations over the lack of options for COVID positive electors and concerns over voting in person are frequently aired, with some questioning the safety of voting in person.
- Some users criticized EC's alleged lack of preparation for electors with COVID and its poor response on the issue. This led some to go as far as calling EC's action voter suppression or an attempt to reduce turnout.
- Social media users are worried about ballots arriving in time to be counted, as well as the amount of time it will take to do count ballots, many believe a delay of more than one day would signal foul play by EC.

Faits saillants sur les médias sociaux / Social media highlights

On the eve of the election, mail-in ballots and voting machines are once again closely linked in the social media environment, some content shows signs of targeted amplification. Contrary to GE43, narratives at this point tend not to emphasize the number of ballots prepared vs the number of electors but instead focus on the

number of days it will take to count and announce the results. A large contingent of skeptics who have emerged since the 2020 US presidential election believe that use of vote by mail facilitates vote rigging and corrupt elections. Others are open to trusting election results, but caution others to vote in person and want a quick result that mirrors their expectations. Delays or results that differ from their beliefs will, in their opinion, prove that results are fabricated.

(8 reactions)</p> <p>Reply 1: I am told that as part of the verification process, they confirm that the person mailing in their ballot didn't vote in person as well. Why they have to wait till after in person election is done. Maybe also why they can count overseas ones early. (9 reactions)</p> <p>Reply 2: That sounds like if someone voted by mail and then changed their mind they could get a do-over on election day??? I think requesting a mail ballot should remove someone from being able to vote in person automatically. (3 reactions)</p> <p>Twitter user 2: It is asinine that they don't count the ballots at the same time as other ballots, at least to the extent they've arrived prior to Monday. 			<p>Reply 1: How is this not obvious to Elections Canada? Are they morons? Do they not see what happened in the US election? (No reaction)</p> <p>Reply 2: We had someone vote twice last election. Other poll supervisor wanted to deny him. I said we have to let him vote. He swears an oath. If the riding is won by a few votes he goes before a judge. The gentleman was Sikh and elderly and probably senile. People forget they have voted. (1 reaction)</p> <p>Reply 3: NDP Jagmeet Singh is Sikh. Gentleman didn't speak English was with a young woman from his household. We risk disenfranchising an immigrant person of color who doesn't speak English perhaps with a disability, or we let him vote twice and leave it to a judge to sort out. (0)</p> <p>Twitter user 3: Wont some ridings start counting on election night though? (4 reactions)</p> <p>Reply 1: Yes, the in-person votes will be counted on election night, but not the local special ballots cast by mail. (4 reactions)</p> <p>Reply 2: My understanding is that the verification of the envelopes containing the special mail ballots will only start on Tuesday, and whenever they are finished with that they can start counting. Mail ballots from overseas and the like will be counted on Monday. (5 r.)</p> <p>Twitter user 4: Unacceptable. I want complete results by midnight Monday. Remember, if you can go to a restaurant, a bar or Costco, you shouldn't be voting by mail and dragging out the democratic process. That isn't a political statement. People with lives to live aren't waiting for you. (1 reaction)</p> <p>Twitter user 5: Ugh, my vote won't be counted until Tuesday, then! Definitely takes away the excitement of an election-night win. (No r.)</p> <p>Twitter user 6: So when do results become official? At the end of mail in ballots ? (No reaction)</p> <p>Twitter user 7: That can't stand in a democracy. There has to be a better way. Hire more people and get it done on Election Day. Elections Canada used to be a beacon of election integrity and now that will be brought into question with this American style absurdity of taking a week to count. (No r.)</p> <p>Twitter user 8: Any word if they will count mail in votes received after Sept 14 ? (No reaction)</p> <p>Twitter user 9: Let me guess Bernier and the PPC are going to be ahead by more votes than remain in seats and then suddenly in the middle of the night the Contards will be ahead BAN MAIL IN VOTING (No reaction)</p> <p>Twitter user 10: This only breeds questions on the validity of our election process. (no reaction)</p> <p>Twitter user 11: Another rigged election? (No reaction)</p>

<p>Faits saillants sur les médias sociaux / Social media highlights</p> <p>Electors are still concerned about accessibility for individuals with COVID-19 who won't be able to make it to the polls on election day. Many described it as voter suppression and call for measures to be put in place like voting outside polling stations. Some call out EC for not preparing enough for this and for its poor response when questioned on the matter. Some also suggest not getting tested before election day to ensure their right to vote or simply lie and go to the polls regardless. Regarding polling station operations, concerns over long line ups, voter health and safety, and the reduced number of polling stations are still prevalent. In a few posts or comments, users describe risks and obstacles in an apparent attempt to reduce voter turnout. One called for people who test positive to COVID-19 next week to file a lawsuit against the LPC for calling the election.</p>

(13 reactions)</p> <p>Reply 1: Far fewer "racialized" polling stations in GTA Liberal strongholds. (2 reactions)</p> <p>CBC reader 5: Elections Canada even purchased 16 million golf pencils and another 3.6 million large pencils" ...all made in China (6 reactions)</p> <p>CBC reader 6: Half a million dollars in pencils, what a waste. (6 reactions)</p> <p>CBC reader 7: Everyone, vaccinated or not, that test positive next week should form a class action suit against the irresponsible party that called this unnecessary super spreader election. (6 reactions)</p> <p>CBC reader 8: Holding an election during the 4th wave of a pandemic that is particularly dangerous to older adults. Can you say "Voter suppression"? (6)</p> <p>CBC reader 9: I voted early. Covid precautions were some what lacking. Line ups outside the polling station were not spaced at 2 metres, more like 2 feet, People crammed together as the line grew longer. No one was there to direct traffic. There must have been a hundred people inside a small gymnasium. You entered the gym and left it via the same corridor. Approximate width 1 metre. Who knows what it will be like on Monday.....a Covid super spreader no doubt. (5 reactions)</p> <p>CBC reader 10: This election probably should never have been called. I rips out divisions and tensions that we really don't need as a nation during a pandemic. (5 reactions)</p> <p>CBC reader 11: The advance voting room I attended was a further 15 min drive than our normal location and the room so small that we were scraping by people in line to walk from the registrar to the voting booth. Definitely was not safer although everyone was masked (3 reactions)</p>	Sept. 19
