Ottawa, 8 January 2024

Revised list of non-Canadian programming services and stations authorized for distribution – Annual compilation of amendments

1. In Broadcasting Regulatory Policy 2011-399, the Commission replaced the lists of eligible satellite services with a simplified, consolidated list, which is currently known as the *List of non-Canadian programming services and stations authorized for distribution* (the list). The consolidated list came into effect 1 September 2011. Additionally, the Commission announced that it will periodically issue regulatory policies setting out the revised list that includes references to all amendments that have been made since the previous regulatory policy setting out the list that was issued.
2. Accordingly, in Appendix 1 to this regulatory policy, the Commission sets out all amendments made to the list since the last compilation published in Broadcasting Regulatory Policy 2023-1. The non-Canadian programming services and stations authorized for distribution approved up to and including 20 December 2023 are set out in Appendix 2.

Note specific to a particular service

*Playboy TV is only authorized for distribution at the specific request of a subscriber. Distributors are not permitted to package Playboy TV in such a way that subscribers are obligated to purchase Playboy TV in order to purchase any other programming service. Distributors are required to take measures to fully block the reception of both the audio and video portions of Playboy TV to subscribers that request it not be receivable in their home (in either unscrambled or scrambled analog form).

General notes

Authorization for the services and stations on this list is subject to the following:

- Providers of the non-Canadian pay and/or specialty services must have obtained and must remain in possession of all necessary rights for the distribution of their programming in Canada.
- Providers of the non-Canadian pay and/or specialty services must not hold, nor try to obtain, nor exercise, preferential or exclusive programming rights in relation to the distribution of programming in Canada.
- The Wholesale Code, set out in the appendix to *The Wholesale Code*, Broadcasting Regulatory Policy CRTC 2015-438, 24 September 2015, applies as a set of guidelines for non-Canadian pay and/or specialty services. The Commission expects these services to conduct their negotiations and enter into agreements with their Canadian partners in a manner that is consistent with the intent and spirit of the Wholesale Code. In particular, non-Canadian services may not include terms in their affiliation agreements that prohibit the distribution of their services on a stand-alone, build-your-own-package or small package basis.
