Subject: National Security Law relating to Hong Kong

Dear Member of the House of Commons:

The Chinese Benevolent Association of Vancouver and the Hong Kong Canadians on Hong Kong Situation Association, in unity with other Chinese community associations and individuals across Canada have issued a joint statement in support of Hong Kong's implementation of the National Security Law. We feel that the House of Commons Petition e-2640 does not represent the beliefs of the majority of Chinese Canadians. We have received support from over 130 Chinese community associations (with over 20,000 members) and more than 5000 individuals across Canada. Attached are the complete lists of supporting community associations and individuals for your reference.

We firmly believe that the Hong Kong National Security Law is for the ultimate benefit of citizens of Hong Kong and the long-term stability of the People's Republic of China. We ask the Canadian government to understand the reasons and background for the introduction of this law and its intent to reinstate peace, safety and security to the Hong Kong society, respect China's national security and sovereignty with Hong Kong being a special administrative region of China, and refrain from interfering with China's internal affairs and Hong Kong's rule of law.

Yours Sincerely,
Chinese Benevolent Association of Vancouver
Hong Kong Canadians on Hong Kong Situation Association
